REASONS FOR ALLOWANCE

1. The amendment filed 1/18/2005 has been entered. Claims 11-16 have been cancelled. Claims 1-10, 17-25 are pending in this Office action.

Allowable Subject Matter

- 2. Claims 1-10, 17-25 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests an apparatus for creating a phase shift keying modulated signal comprising: a sample counter that generates a count signal that is representative of the number of samples between said first symbol and said second symbol; and a look-up table that generates intermediate values between the first and second symbols in response to said first index signal, said second index signal, and said count signal; and a decomposition circuit that separates amplitude and phase components of said PSK signal to produce a PSK phase component signal and a PSK amplitude component signal; a phase offset generator that generates a phase change signal; and a summing circuit connected to said PSK phase component signal and said phase change signal that adjusts said phase portion of said PSK phase component signal in response to said phase change signal, and produces a phase adjusted phase component signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
